

Mohammad Erfan Echresh

PYTHON/DJANGO DEVELOPER

Birmingham, United Kingdom

+44 7514 186571 | erfan.hresh@gmail.com | [Homepage](#) | [GitHub](#) | [LinkedIn](#)

Summary

Python/Django Developer with experience in back-end development, AI model design, and blockchain solutions. Skilled in building scalable web applications and decentralized platforms. Strong background in data science and computational neuroscience with proven success in freelance and team projects. Interests span Full-Stack Web Development, AI & Machine Learning, Blockchain & DApps, and Data Science.

Work Experience

Motion Dynamics

Birmingham, UK

FRONT-END DEVELOPER

Sep 2025 - Present

- Developed an interactive React.js front-end application to visualize analytical JSON data using dynamic charts and tooltips
- Integrated multiple chart types to clearly present complex data insights, enhancing user interpretation and decision-making
- Implemented a 3D human body model synchronized with chart data to visualize physical states and transitions in real time
- Designed a responsive and modular UI, ensuring smooth rendering and performance across devices
- Collaborated with backend and data teams to ensure accurate, real-time data mapping between API responses and visual components

E-Commerce Platform

Tehran, Iran (Remote)

FREELANCE FULL-STACK DEVELOPER

Dec 2024 - Oct 2025

- Designed and built a scalable e-commerce platform with Django back end, responsive Bootstrap front end, and PostgreSQL database
- Implemented product management, customer accounts, and order tracking features to streamline sales operations
- Integrated secure payment gateways and responsive layouts, contributing to a 20% increase in sales

MGC RZ Company

Tehran, Iran

PYTHON BACK-END DEVELOPER

Feb 2024 - Jun 2024

- Developed and deployed scalable modules for NFT marketplace and subscription-based e-commerce platform
- Built seller dashboards, order tracking, and MFA authentication (via email and SMS) for secure user access
- Enhanced user experience by integrating AI-driven image generation with Stable Diffusion

Butterfly Nail Club

London, UK (Remote)

FREELANCE FULL-STACK DEVELOPER

Dec 2023 - Apr 2024

- Built a web-based reservation system using Django, REST APIs, and Bootstrap
- Developed booking models, worker scheduling, and automated time-release cron jobs
- Improved booking efficiency and cut scheduling time by 50% while reducing errors

Saman Ab Imen

Ahvaz / Tehran, Iran (Hybrid)

PYTHON FULL-STACK DEVELOPER

Sep 2022 - Jan 2024

- Developed a full intranet-based automation system using Python with multi-level access control for managers and staff
- Designed and implemented a company website with real-time task tracking, employee activity logging, and service presentation
- Built responsive front-end using HTML/CSS and integrated with Django back-end for seamless user experience
- Automated task registration and monitoring, improving internal workflow visibility and reducing manual reporting time

Education

University of Birmingham

Birmingham, UK

MSC COGNITIVE NEUROIMAGING & DATA SCIENCE

2024 - Present

- Specialization in Computational Neuroscience
- Thesis: Virtual Reality & Material Perception
- Designed VR experiments in Unity to study human perception of material softness
- Implemented interactive environments with haptic and visual feedback in the university's VR Lab
- Applied data science methods to analyze behavioral and cognitive responses in perception tasks

K.N. Toosi University of Technology

Tehran, Iran

BSC ELECTRICAL ENGINEERING

2019 - 2024

- Specialization in Control Systems
- Thesis: Decentralized Application for Secure Medical Data Transfer
- Built a decentralized application (DApp) on Ethereum blockchain to secure medical IoT data transfer
- Developed protocols ensuring data privacy, integrity, and scalability in healthcare communication
- Conducted research bridging blockchain with real-world medical systems

Skills

Languages	Python, C++, Dart, JavaScript, WordPress
Frameworks & Tools	Django, FastAPI, Flutter, Bootstrap, Pandas, RESTful API, Git, HTML/CSS, React.js
Expertise	Full-Stack Development, AI Integration, Blockchain Development

Certifications

- Sep 2023 **Python Web Development with Django**, Tehran Institute of Technology
- Apr 2023 **Programming with Python**, Tehran Institute of Technology
